Mr Paolo Romagnoli  
Pipistrel Vertical Solutions d.o.o  
Vipavska cesta 2  
SI-5270 Ajdovščina,  
Slovenia

Dear Mr Romagnoli

**Issue of LSA Type Acceptance – ALPHA Electro 167**

We have pleasure in advising type acceptance as an LSA of the ALPHA Electro 167 model in New Zealand has now been completed and the associated LSA Type Acceptance report is enclosed herewith. Examples of the type are now eligible to be issued with a New Zealand airworthiness certificate in the Special Category - LSA.

Note: Type Acceptance in the LSA category is based solely on recognition of the manufacturer's declaration of compliance with ASTM "Industry" standards. There is no formal rule requirement for LSA Type Acceptance, but it gives the CAA some confidence that the technical analysis and substantiation behind the declaration has been carried out.

A separate invoice will be sent out for the engineering investigation time involved under CAA Work Request number 20/ACM/71.

Yours sincerely

Kavita Vanmari  
Certification Engineer
